

Posters picture our Bold Future

MIAMI State High School's Year 8 students have pictured the Gold Coast in 30 years' time, creating posters depicting the city's Bold Future.

The school is spearheading the city's youth response to Council's Bold Future program, which will develop a blueprint for the Gold Coast for the next three decades.

Since 1998, Council has been working towards a vision of a sustainable lifestyle, economy and environment for the city.

New challenges, including climate change, have been identified as issues affecting the city's future.

Council is asking all residents to take part in its Bold Future program

by spending a few minutes completing a feedback form to help guide its strategies and planning towards 2037.

Miami High's Year 8s have discussed and decided their priorities for their city for the next 30 years, and have filled in their feedback forms.
